India Ratings Affirms Provident Meryta's NCDs at 'IND BBB+'/Stable

Nov 20, 2026 | Provident Meryta Private Limited | Residential | Commercial Projects

India Ratings and Research (Ind-Ra) has affirmed Provident Meryta Private Limited's (PMPL) debt instruments as follows:

Details of Instruments

Instrument Description	Regulator of Instrument	Date of Issuance	Coupon Rate (%)	Maturity Date	Size of Issue (INR million)	Rating Assigned along with Watch/Outlook	Rating Action
Non-convertible debentures*	Refer ISIN annexure	-	-	-	19.70	IND BBB+/Stable	Affirmed

*details in Annexure

Analytical Approach

Ind-Ra has factored into the ratings the strong parentage of PMPL and its group company, Provident Cedar Private Limited (PCPL; debt rated at 'IND BBB+'/Stable) with their ultimate parent being Puravankara Limited (PL; debt rated at 'IND A-'/Stable). Ind-Ra continues to take a top-down rating approach under its Parent-Subsidiary Linkage Criteria to rate PMPL, a special purpose vehicle (SPV), and has linked its rating as well as Outlook to those of PL due to the strong strategic and operational ties and strong to moderate legal ties between them, backed by the post-default corporate guarantee (CG) providing explicit support to the rating.

Detailed Rationale of the Rating Action

The rating reflects Ind-Ra's expectation that PMPL will continue to maintain strong ties with PL. The agency expects PL to continue to provide financial support to PMPL in case of any cash flow shortfall. Ind-Ra believes the company would complete the project in a timely manner, as per the management's target. The rating also considers the delayed resolution of litigation involving PHL's land parcel which has moderated sales velocity due to concerns over interconnected common amenities but does not directly affect PMPL. However, the litigation is expected to be resolved in favour of PHL, as per the management. Also, the credit profile remains supported by PL's strong parentage, liquidity, collection-linked NCD repayments and guarantee provided by PL.

List of Key Rating Drivers

Strengths

- Strong ties with financially robust parent
- CG by ultimate parent
- Moderate operational performance; accelerated repayments
- Emerging project location

Weaknesses

- Geographic concentration and project execution risk
- Standalone size and scale small

Detailed Description of Key Rating Drivers

Strong Ties with Financially Robust Parent: PMPL is a 100% subsidiary of Provident Housing Limited, which is a 100% subsidiary of PL. PMPL is an SPV and operates under the Provident brand, which is the premium affordable segment of PL. PMPL and PCPL issued NCDs of INR570 million and INR360 million, respectively, in October 2022 which were subscribed to by the Purva Real Estate Fund (the fund). The proceeds from the NCDs were utilised for the acquisition of a land parcel of 51.6 acres located in Guduvancherry, Chennai. The acquired land is being developed jointly by PMPL and

PCPL as a plotted development project. The agency believes the success of both SPVs is a key strategic priority for PL. There are strong strategic and operational ties between PMPL and PL, which has provided an unconditional and irrevocable corporate guarantee to the fund.

PL has completed 98 projects over the past four decades with a total floor space of 60 million square feet (msf) across its brands - Provident and Puravankara - in the major cities of southern and western India. Provident, as a brand, has been in existence for over 16 years, and is well established. PL is among the top 10 players in most of the cities it operates in and has a strong presence in Bengaluru, where PMPL intends to operate. The association with PL and the ability to use the Provident brand helps PMPL and PCPL benefit from PL's strong brand image, experience and project execution capabilities. Furthermore, PL has experience in executing such plotted development projects.

CG by Ultimate Parent: The rating factors in the explicit support provided by PL in the form of unconditional and irrevocable post-default CG to investors. As per the guarantee, PL has guaranteed a minimum internal rate of return (IRR) of 12% on the investment amount at the end of five years and six months from the date of allotment. Furthermore, the fund has invested in PMPL through one of its schemes through the NCD mode in PMPL. If this scheme through which the fund has invested in PMPL is sold off to any other fund, the CG would cease to exist.

Moderate Operational Performance; Accelerated Repayments: Purva Soukhyam was launched in March 2024 with a total saleable area of 1.37 msf, of which about 0.82 msf pertains to Phase M that comes under PMPL. Out of the 0.82 msf of Phase M, 69% has been sold at end-September 2026 with a total booking value, of INR1,829 million almost full amount had been collected and a total pending cost of INR359 million. Its sales moderated as the management has adopted a cautious and calibrated sales strategy due to ongoing litigation. Ind-Ra estimates the value of the unsold area at INR765 million. Additionally, the company had a cash balance of INR130 million at end-September 2026, available for project costs. PMPL has started making prepayments towards the NCDs from the 52% of the revenue share of the fund from August 2024 with the current outstanding amount of about INR20 million. However, Ind-Ra believes the company has sufficient net cash flows from unsold inventory to take care of all project-related obligations.

Emerging Project Location: The proposed project is located within 8km of National Highway 32 and is in proximity to Maraimalai Nagar SIDCO (a prominent industrial hub of Chennai). Also, the subject property is close to several educational institutions and has large vacant land parcels in its vicinity. The availability of large land parcels at competitive prices has resulted in high residential development in the past seven-to-eight years.

Geographic Concentration and Project Execution Risk: PMPL's standalone credit profile is constrained by its project being based out of a single location. In addition, the project was launched in March 2024 and has incurred about 73% of the total project cost as of September 2026. The project is in the final stages of construction with the occupancy certificate (OC) having been received, resulting in minimum execution risk. It is a plotted development project having a shorter construction period as compared to residential projects and the project is expected to be completed by FY28. This helps mitigate execution risk. Additionally, the entire construction cost has to be funded from the collections accruing from sales of plots which exposes the company to the cyclicality risk of the industry and geography. Any decline in the sale velocity or the non-achievement of the company-expected sales realisation can lead to a liquidity shortfall.

Standalone Size and Scale Small: Currently, only one project is housed under PMPL with no other projects planned or land bank available for future expansion. The overall project scale is relatively smaller at the group level, given the total saleable area of 0.82msf.

Liquidity

Adequate: The NCDs have neither a fixed coupon nor a fixed principal repayment schedule. PL has guaranteed a minimum IRR of 12% to the fund after five years and six months from the date of the allotment of the NCDs. The proceeds from the sale of the land parcels are being distributed in the ratio of 52:48 between the fund and PL. The 52% entitled to the fund are from gross sale proceeds and used towards debenture redemption and premium payment from August 2024. On 30 September 2026, the total debt was INR591.4 million (including loan from related parties and interest accrued). Ind-Ra believes the rest 48% allocated to PL would be sufficient to meet the cash requirement for the construction. In case there is any shortfall, PL would make good of these obligations.

Rating Sensitivities

Positive: PMPL's rating is support driven, and given the size and scale of the company, the rating is unlikely to improve in the medium term.

Negative: A weakening of the linkages between PL and the SPV or the dissolution of the corporate guarantee from PL to the debenture holder could result in a rating downgrade.

Disclosures for CE Rating

1) **UNSUPPORTED RATING**

Ind-Ra has affirmed the unsupported rating at 'IND BB+'/Stable

As per SEBI Master Circular, in the case of listed or proposed to be listed debt securities, an unsupported rating is to be disclosed in cases where there is a presence of a specified support considerations, even though the instruments do not carry a CE suffix rating.

The unsupported rating is arrived at without factoring in the explicit credit enhancement (CE). It helps in understanding the extent of CE factored into the instrument rating.

The unsupported rating factors in the project being in the final stages of execution and the sales risk associated with the project. The rating is also constrained by the hybrid nature of the debt instrument with flexible repayment structure and zero coupon. However, Ind-Ra believes the execution risk is minimal as this is a plotted development and receipt of occupancy certificate (OC). Also, the company would operate under the Provident brand and its parent is an established player in the real estate industry.

The analytical approach, key rating drivers, and liquidity for the unsupported rating are the same as that for the NCD rating.

Rating Sensitivities

Positive: The following events, individually or collectively, could lead to a positive rating action:

- higher-than-expected sales and/or collections and timely execution of project;
- a further improvement in the linkages with the parent

Negative: The following events, individually or collectively, could lead to a negative rating action:

- lower-than-expected sales and/or collections and delay in execution of project;
- a weakening of the linkages with the parent

2) **Adequacy of Credit Enhancement (CE):** PL has provided a corporate guarantee for PMPL's NCDs. Since the guarantee does not meet Ind-Ra's requirement of presence of a pre-default clause for the guarantee invocation and a well-defined payment mechanism, it has not been factored as an explicit CE and hence the CE suffix has not been added to the rating of NCDs.

3) **FINANCIAL COVENANTS**

Structured Payment Mechanism

Trigger date	Action point
Five years and six months from date of investment amount in subsidiaries of guarantor	The guarantor has guaranteed the fund a minimum 12% IRR at the end of redemption period.

Any Other Information

Not applicable

ESG Issues

ESG Factors Minimally Relevant to Rating: Unless otherwise disclosed in this section, the ESG issues are credit neutral or have only a minimal credit impact on PMPL, due to either their nature or the way in which they are being managed by the entity. DISCLAIMER

India Ratings and Research Private Limited (India Ratings) is a private limited company registered under the provisions of the Companies Act, 1956, having CIN U67100MH1995FTC140049, and registered office at Wockhardt Towers, 4th Floor, West Wing, Bandra Kurla Complex, Bandra East, Mumbai, Maharashtra, 400051, India. The contact details of India Ratings are Telephone No.: +91 22 4000 1700 and Fax. No.: +91 22 4000 1701. India Ratings is registered with the Securities and Exchange Board of India (SEBI) as a Credit Rating Agency under Section 12 of the SEBI Act, 1992, having SEBI Registration Number IN/CRA/002/1999.

India Ratings and Research Private Limited (India Ratings) is a Credit Rating Agency registered with the Securities and Exchange Board of India (SEBI) under Section 12 of the SEBI Act, 1992. In this capacity, India Ratings undertakes ratings of listed and proposed to be listed instruments that fall under the regulatory oversight of SEBI. In addition, in line with Regulation 9(f) of the SEBI (Credit Rating Agencies) Regulation, 1999, India Ratings rates financial instruments falling under the purview of other financial sector regulators (FSR). Instruments which come under the purview of other FSRs do not come under the overall governance of SEBI. Issuers/Users/readers of this communication/report are, therefore, cautioned to know the risks involved in dealing in such instruments. Such instruments can carry Liquidity and Price Risk which pertains to how saleable a Security is in the market. If a particular Security does not have a market at the time of sale, then the Investor's investments may have to bear an impact depending on its exposure to that particular Security. It is not possible to predict if, and to what extent, a secondary market may develop in the debt securities or at what price the debt securities will trade in the secondary market or whether such market will be liquid or illiquid. The more limited the secondary market is, the more difficult it may be for holders of the debt securities to realise value for the debt securities prior to redemption of the debt securities. If the debt securities are unlisted, then the ability of the Investors to resell or trade them may be limited, leading to liquidity and price risk on the debt securities. The returns from a particular asset class may underperform returns from other asset classes. The changes in government policy in general and changes in taxation may impact the returns to investors. There can be external risks arising out of geopolitical situations which can lead to volatility in/impact the performance of the individual securities. Issuers/Users/readers are advised to note that SEBI's investor protection mechanisms and SEBI's grievance or dispute redressal mechanisms are not applicable to ratings assigned by India Ratings that fall under the purview of other FSRs. Should you have any grievance with instruments under the purview of other FSRs, please write to infogrp@indiaratings.co.in. For any grievance with instruments under the purview of SEBI, please write to investor.grievances@indiaratings.co.in.
