BUSINESS UPDATE AND OUTLOOK

The company has done well both in the Luxury and Premium Affordable segments and has maintained margins both at the Gross and PBT levels. The absorption for our new product launches (Windermere, Midtown and Bluemont) has been impressive and these have contributed significantly to our growth in the financial year ended 31 March 2012.

The company's commitment to timely execution, both on new and existing projects, has ensured quicker turn-around times across the construction cycle. The company is also adopting newer construction technologies that will be the norm in all projects going forward.

Provident Harmony, launched in January 2012, and Purva Seasons, launched in March 2012, have performed well and we expect to maintain this momentum in the coming quarters as well.

Commencing Q1FY13, the company will launch three new projects in Bengaluru, followed by two more projects in the following quarter in Chennai and Bengaluru respectively.

We expect the operational cash flows to significantly improve from Q1FY13 arising out of sales from existing and new project launches.
