### **Notes to the Consolidated Financial Statements**

### 1 Significant accounting policies

### a. Basis of preparation

The financial statements have been prepared on accrual basis under the historical cost convention and in accordance with the applicable accounting standards prescribed by Companies (Accounting Standards), Rules 2006, the provisions of the Companies Act, 1956 (to the extent applicable) and the Companies Act, 2013 (to the extent applicable). The accounting policies have been consistently applied unless otherwise stated.

### b. Use of estimates

The preparation of financial statements is in conformity with generally accepted accounting principles which require the management of the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon the management's best knowledge of current events and actions, actual results could differ from those estimates. Significant estimates used by management in the preparation of these financial statements include the percentage completion for projects in progress, estimates of the economic useful lives of the fixed assets, provisions for bad and doubtful debts and accruals for employee benefits.

### c. Basis of consolidation

Subsidiaries are all entities over which the Company has the power to control the financial and operating policies. The Company obtains and exercises control through voting rights. The consolidated financial statements of the Group incorporate the financial statements of the Company as well as those entities controlled by the Company. The consolidated financial statements have been combined on a line-by-line basis by adding the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances/transactions and resulting unrealized profits in full. The amounts shown in respect of reserves comprise the amount of the relevant reserves as per the Balance Sheet of the parent company and its share in the post-acquisition increase in the relevant reserves of the consolidated entity.

The excess of cost of the parent company of its investment in the subsidiary over its portion of equity in the subsidiary, on the date of investments is recognised in the financial statements as goodwill. The parent portion of equity in such subsidiary is determined on the basis of book values of assets and liabilities as per the financial statement of the subsidiary as on the date of investment. In case the cost of investment in subsidiary companies is less than the proportionate share in equity of the investee company as on the date of investment, the difference is treated as capital reserve and shown under Reserves and Surplus.

Associates are those entities over which the Company is able to exercise significant influence but which are neither subsidiaries nor interests in a joint venture. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

Consolidated financial statements are prepared using uniform accounting policies across the Group.

### d. Revenue recognition

Revenue from projects

Revenue from the sale of properties is recognized when significant risks and rewards of ownership have been transferred to the customer, which coincides with entering into a legally binding agreement.

Revenue from sale of undivided share of land (UDS) in qualifying projects where the risks and rewards on the sale of the UDS are separable from the risks and rewards on the construction contract is recognized upon the transfer of all significant risks and rewards of ownership of such real estate, as per the terms of the contracts entered into with the buyers, which coincides with the firming of the sales contracts/agreements and a minimum level of collection of dues from the customer.

Revenue from the sale of UDS on other projects where the risk and rewards on the sale of the UDS are not separable from the construction contracts and therefore do not qualify above are recognized on the percentage of completion method.

Effective 01 April 2012, in accordance with the "Guidance Note on Accounting for Real Estate Transactions (Revised 2012)" (Guidance note) all projects commencing on or after the said date or projects where revenue is recognised for the first time on or after the above date, construction revenue on such projects have been recognized on percentage of completion method provided the following thresholds have been met:

- (a) all critical approvals necessary for the commencement have been obtained;
- (b) the expenditure incurred on construction and development costs is not less than 25 per cent of the total estimated construction and development costs:
- (c) at least 25 per cent of the saleable project area is secured by agreements with buyers; and
- (d) at least 10 per cent of the agreements are realised at the reporting date in respect of such contracts.

Contract revenues represent the aggregate amounts of sale price for agreements entered into and are accrued based on the percentage that the actual construction costs incurred until the reporting date bears to the total estimated construction costs to completion. Land costs are not included for the purpose of computing the percentage of completion.

Contract costs include the estimated construction, development, proportionate land cost and other directly attributable costs of the projects under construction. Losses expected to be incurred on projects in progress, are charged to the Statement of Profit and Loss in the period in which these losses are known.

For projects executed through joint development arrangements prior to 01 April 2012, which represent barter transactions, whereby the Company gives up a defined percentage of constructed area in lieu of payment for its share in the land, the Company accounts for such transactions on net basis and does not ascribe any value to the share of land acquired on such basis. Effective 01 April 2012, in accordance with the Guidance Note, developmental rights acquired through joint development arrangement are recorded on a gross basis on the estimated amount to be spent on development or construction of built up area to be surrendered in lieu of the above rights.

The estimates for saleable area and contract costs are reviewed by the management periodically and the cumulative effect of the changes in these estimates, if any, are recognized in the period in which these changes may be reliably measured.

Unbilled revenue disclosed under other assets represents revenue recognized over and above the amount due as per payment plans agreed with the customers. Progress billings which exceed the costs and recognized profits to date on projects under construction are disclosed as advance received from customers under other current liabilities. Any billed amount that has not been collected is disclosed under trade receivables and is net of any provisions for amounts doubtful of recovery.

Revenue from the sale of land is recognized in the period in which the agreement to sell is entered into. Where there is a remaining substantial obligation under the agreement, revenue is recognized on the fulfilment of such obligation.

#### Rental income

Income from rentals is recognized on a straight line basis over the primary, non-cancellable, period of the arrangement.

Interior income

Interior income is recognized as and when the services are rendered, at rates agreed upon with customers.

### e. Properties under development

Properties under development represents construction work in progress which are stated at the lower of cost and net realizable value. This comprises of cost of land, construction related overhead expenditure and borrowing costs and other net costs incurred during the period of development.

### f. Properties held for sale

Completed properties held for sale are stated at the lower of cost and net realizable value. Cost includes cost of land, construction related overhead expenditure and borrowing costs and other costs incurred during the period of development.

### g. Properties held for development

Properties held for development represents land acquired for future development and construction, and is stated at cost including the cost of land, the related costs of acquisition, borrowing cost, where applicable and other costs incurred to get the properties ready for their intended use.

### h. Fixed assets

Fixed assets are stated at cost less accumulated depreciation/amortization and impairment losses. Cost comprises the purchase price and any cost attributable to bringing the asset to its working condition for its intended use. Fixed assets purchased in foreign currency are recorded at the actual rupee cost incurred.

Expenditure directly relating to expansion is capitalized only if it increases the life or functionality of an asset beyond its original standard of performance.

## i. Depreciation/amortization

Depreciation/amortization on fixed assets is provided on the straight-line method, based on the useful life of asset specified in Schedule II to the Companies Act, 2013. The Management estimates the useful lives of the assets as per the indicative useful life prescribed in Schedule II to the Companies Act, 2013, except shuttering materials whose life is estimated as 7 years. Assets individually costing less than ₹ 5,000 are fully depreciated in the period of purchase.

### j. Borrowing cost

Borrowing costs that are attributable to the acquisition and/or construction of qualifying assets are capitalized as part of the cost of such assets, in accordance with Accounting Standard 16 – "Borrowing Costs". A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss as incurred.

## k. Advertisement and promotional expenses

Advertisement and promotional costs in respect of projects currently being developed and for general corporate purposes are expensed to the Statement of Profit and Loss as incurred.

### I. Impairment of assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

#### m. Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the long-term investments.

#### n. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks, other short term highly liquid investments with original maturity of three months or less.

### o. Inventory

Inventory includes raw materials used for the construction activity of the Company. Raw materials are valued at the lower of cost and net realizable value with the cost being determined on a 'First In First Out' basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and costs required to make the sale.

### p. Foreign currency transactions

### (a) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the respective transaction.

#### (b) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange differences arising on a monetary item that, in substance, form part of Company's net investment in a non-integral foreign operation is accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognized as income or as expenses.

### q. Leases

#### Finance leases

Assets acquired on lease which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the assets, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalized.

If there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

### Operating leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straightline basis over the lease term unless other systematic basis is more representative of the time pattern of the benefit.

### r. Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Accounting Standard 15- "Employee Benefits".

### Provident fund

The Company contributes to the statutory provident fund of the Regional Provident Fund Commissioner, in accordance with Employees' Provident Funds and Miscellaneous Provisions Act, 1952. The plan is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which the employee renders services.

### Gratuity

Gratuity is a post employment benefit and is a defined benefit plan. The liability recognized in the Balance Sheet represents the present value of the defined benefit obligation at the Balance Sheet date less the fair value of plan assets (if any), together with adjustments for unrecognized past service costs. Independent actuaries use the projected unit credit method to calculate the defined benefit obligation.

Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to the Statement of Profit and Loss in the period in which such gains or losses arise.

### Vacation pay

Liability in respect of vacation pay becoming due or expected to be availed within one year from the Balance Sheet date is recognized on the basis of undiscounted value of estimated amount required to be paid or estimated value of benefit expected to be availed by the employees. Liability in respect of earned leave becoming due or expected to be availed more than one year after the Balance Sheet date is estimated on the basis of actuarial valuation in a manner similar to gratuity liability.

### Other short-term benefits

Expense in respect of other short-term benefits including performance bonus is recognized on the basis of amount paid or payable for the period during which the employees render services.

### s. Tax expense

Tax expense comprises both current and deferred taxes. The current charge for income taxes is calculated in accordance with the relevant tax regulations. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profits.

Unrecognized deferred tax assets of earlier years are re-assessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realized.

#### t. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all potential equity shares.

### u. Provisions and contingent liabilities

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

During the previous years, the Company received an order from the Income Tax Appellate Tribunal (ITAT) directing the Assessing Officer to carry-out the denovo assessment of the income for fiscal 2004 to 2009 in relation to the claim under Section 80-IB for a project of the Company. Based on the aforesaid denovo assessment carried out, a portion of the claim under Section 80-IB was disallowed for the above referred project. The appeal against the said ITAT order is pending before the Hon'ble High Court of Bombay. During the quarter ended 31 December 2014, the Company received favourable orders for fiscal 2010 and 2011 from CIT (Appeals) allowing the claim under Section 80-IB in relation to certain eligible projects. In addition, a portion of the claim under Section 80-IB for a project was disallowed based on the aforesaid ITAT order.

Consequently, the Company recorded a net credit in the financial statements for the quarter and nine months ended 31 December 2014 in respect of the eligible claim under Section 80-IB.

Further, during the quarter ended 30 September 2014, the Company has received an order for fiscal 2005 and 2006 towards penalty amounting to ₹ 2.54 consequent to the denovo assessment order for those years. The appeal against the demand for penalty which is pending with CIT (Appeals). The management believes that aforesaid open litigations will not have any material affect on the financial statements.

#### 35 Segmental information

The Group is engaged in the development and construction of residential and commercial properties which is considered to be the only reportable business segment as per Accounting Standard 17 on Segment Reporting. The Group operates primarily in India and there is no other significant geographical segment.

#### 36 Transfer pricing

The Finance Act, 2012 has made the detailed Transfer Pricing regulations applicable to 'specific domestic transactions'. Accordingly, the income and/or expenditure arising from such 'specific domestic transactions' have to be computed having regard to the arm's length price. These regulations, inter alia, also require the maintenance of prescribed documents and information including furnishing a report from an Accountant within the due date of filing the return of income.

The company has undertaken necessary steps to comply with the Transfer Pricing regulations and the prescribed report from the Accountant will be obtained for the year ending 31 March 2015. The management is of the opinion that the above referred transactions are at arm's length, and hence the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.
